## BIO PROTEIN SHAMPOO

A deficiency of proteins is mainly the cause of dry and damaged hair. Bio Protein Shampoo strengthens the hair from inside by using proteins that will nourish the hair shaft. The shampoo is enriched by a combination of proteins: wheat proteins, extracts of chamomile, nettle, birch and arnica. Daily application will result into strong and vigorous hair.

## BIO PROTEIN HAIR CONDITIONER

Amino acids are the building blocks of proteins that constitute the hair. These proteins give back strength to hair that has been weakened by external conditions (colouring, bleaching, sun, blowdry,..). Therefore, a weekly application of Bio Protein Hair Conditioner will reboot the hair. Bio Protein Hair Conditioner contains wheat proteins, extracts of horse chestnut, biotin, chamomile, arnica, birch and vitamin F, that will strengthen and nourish the hair. Bio Protein Hair Conditioner can be used in combination with Bio Protein Shampoo, and doesn't weigh down your hair.

## BIO PROTEIN HAIR MASK

Bio Protein Hair Mask is the perfect solution to sensitized and damaged hair. A combination of treating agents will penetrate the hair and produce miracles. Shea Butter has moisturizing and smoothing properties. Argan oil is a powerful shine enhancer and provides intensive care for dry or brittle hair. Use Bio Protein Hair Mask as required, and get your hair in perfect equilibrium.
